

SOCIAL ENTREPRENEURSHIP FOR COMMUNITY EMPOWERMENT

The SECE project is designed to create innovative open-source training interventions and materials that integrate tools and methods for developing effective social entrepreneurship primarily through self-employment.

Aims and objectives:

- raise awareness of social entrepreneurship and promote its concepts in self-employment
- enhance the employability of adults by developing their competencies and skills for social entrepreneurship through digital tools and game based learning
- support adult educators in gaining the competence required for the provision of high quality education in social entrepreneurship for adults, providing them with new approaches and practical resources
