

## APRICOT

Attentive Parental Education for Wise Being and co-being in Changing Times

No. 2019-1-LT01-KA204-060481

### *Collection of APRICOT stories*

This is a collection of narrative and digital testimonies (stories) of adult educators, parents and grandparents personal experience of applying media and digital literacy skills in daily practice – focus on being mindful of what we see in the media and how to interact critically with the information we are presented with. The testimonies also focus on how Critical Digital Literacy can be used to help keep children safe and able to distinguish what is true and what is false and/or manipulative in social media. It was developed 20 stories – each project partner presented 5 stories, 1 of them is subtitled or soundtrack in English.
